### WORK EXPERIENCE

---

#### Senior Software Engineer - Full-stack Developer

**Surfe (ex-Leadjet)** [ 22/02/2022 – Current ]

City: Skopje

Country: North Macedonia

Website: <http://surfe.com/>

As a Senior Software Engineer at Surfe, a French startup company, which develops a product that enables your CRM to seamlessly integrate with any website or sales tool. I play a key role in ensuring code quality and contributing to the formulation of the product roadmap.

I am also responsible for:

- developing, maintaining, and scaling both front-end & back-end
- preserving and improving the quality of the code
- participating in the drafting of the roadmap

**Technologies used:** JavaScript, TypeScript, React.js, Vue.js, Go (Programming Language), MongoDB, TimescaleDB, PostgreSQL

#### Senior Software Engineer - Full-stack Developer

**Netcetera** [ 30/06/2018 – 22/02/2022 ]

City: Skopje

Country: North Macedonia

Website: <https://www.netcetera.com/>

##### Project 1:

I worked for a client in the newspaper industry. It was a big German newspaper, which holds more than 3 million views per month. Apart from being a senior software engineer, I was also the tech coordinator on this project, and my main responsibilities were

- direct communication with clients
- creating tech tasks and delegating work to other team members
- developing new features including code review
- writing unit & integration tests for the whole system (front-end & back-end)

**Technologies used for project 1:** Node.js, JavaScript, TypeScript, React.js, PostgreSQL, Redis, ElasticSearch, Cloud (DigitalOcean), Microservices.

##### Project 2:

I collaborated with a Swiss client on a health promotion initiative across Swiss cantons. As a software engineer, my primary responsibilities were

- developing new user-facing features using React.js and Java Spring
- translating designs into high-quality code

- optimizing components for maximum performance across a vast array of web-capable devices and browsers.

**Technologies used for project 2:** Java, Java Spring, JavaScript, TypeScript, React.js, MaterialUI, PostgreSQL.

### **Project 3:**

I was part of a team that worked for a Swiss client on the development of one of the largest online ticket reservation systems in Switzerland. The project was more back-end oriented, where I utilized Java Spring as the primary technology for developing the product.

**Technologies used for project 2:** Java, Java Spring, JavaScript, Thymeleaf, PostgreSQL.

### **Web Developer Mentor/Trainer**

**Codecademy Macedonia** [ 31/12/2018 – 30/09/2019 ]

City: Skopje

Country: North Macedonia

Website: <https://codecademy.mk/>

I mentored over 50 students during my time as a mentor at CodeAcademy, where I carefully tailored the classes to be easy to understand for newcomers, while using state-of-the-art technologies like JavaScript, TypeScript, React.js, HTML, and CSS.

### **Java Software Developer**

**One Inside** [ 30/09/2017 – 31/05/2018 ]

Website: <http://www.one-inside.com>

#### **Main responsibilities:**

- Java Developer
- implementing AEM components
- services in AEM
- SOLR search
- unit tests

**Technology used:** Java, Apache Sling, Adobe AEM/CQ5, OSGI, JCR

### **Intern**

**One Inside** [ 30/06/2017 ]

**Main responsibilities:** Implementing Angular components, working with RESTful service, working with SQL Server and Firebase

**Technology used:** Angular 2, Node.js

### **Django Python Developer**

**PNA Technology** [ 30/04/2017 ]

**Main responsibilities:** Building web APIs with Django

**Technology used:** Django, Python, MySQL

### **Intern**

**SIMT** [ 31/05/2016 – 30/06/2016 ]

**Main responsibilities:** Development of desktop and web-oriented applications in the development environment of IBM NOTES DOMINO 9.0, Java-based platform

**Technology used:** Java, IBM NOTES DOMINO 9.0

## EDUCATION AND TRAINING

---

**BSc in Information Science and Computer Engineering, direction Computer Science and Engineering**

***Faculty of computer science and engineering; "Ss. Cyril and Methodius" Univeristy*** [ 14/09/2014 – 31/08/2018 ]

Address: Skopje

## LANGUAGE SKILLS

---

Mother tongue(s): **Macedonian**

Other language(s):

**English**

**LISTENING C2 READING C2 WRITING C2**

**SPOKEN PRODUCTION C2 SPOKEN INTERACTION C2**

**French**
